

# SICO TC-65 MOBILE FOLDING TABLE

## FEATURES

Sico TC-65's can 25%-40% more students than tables with chairs in the same space.

Tables with attached seats eliminate the noise of chairs being slip around and banging together. They also eliminate aisles being blocked and the horse-play that can occur with chairs.

Clean up time is cut in half - one TC-65 and its seats can be folded and rolled out of the way far faster than any table with loose chairs.

Table and seating is easier on your floors because the TC-65 rest on non-marking neoprene glides and wheels.

Expansion rivets keep table tops firm to the frame and won't work loose like ordinary screws. Sico's Armor Edge on tops is incredibly durable and hermetically seals the edge of the table.

Floating fold design means easy setup and handling. The torsion bar makes lifting effortless: minimal lifting force required.

Virtually indestructible ABS seats.

High pressure Melamine tops with MDF core stay nice because they don't touch the floor during transport.

Legs are nickel chrome plated for durability, appearance, and ease of cleaning.

A rigid vinyl backer sheet is applied to the underside of the table tops for moisture control and easy clean-up.

### ADDITIONAL FEATURES

- Take advantage of the free space analysis drawings which will provide you with the appropriate number of tables and table accessories.
- Serial numbers for easy identification.
- The Sico TC-65 table comes with a 15 year warranty and is UL listed.
