

SICO SOLID FUEL FOOD WARMER

FEATURES

Double wall construction keeps the exterior of the food warmer from getting too hot to handle. The Solid Fuel Food Warmer has top and side handles that makes it easy to place the food warmer under any table.

A reinforced gravity lock keeps the door securely closed eliminating spillage of food or canned heat.

ADDITIONAL FEATURES

- All riveted construction - no spot welds that break in extreme heat.
- Mobile rack system available for storage. Take advantage of the free space analysis to determine the correct number of storage systems for your property.
- The Solid Fuel Food warmer is made of reinforced stainless steel making it easier to clean and more durable in everyday use.
- Three removable shelves inside box are securely attached to frame eliminating any noisy transportation of food.
- Serial numbers for easy identification.
