

SICO BY-65 MOBILE FOLDING TABLE

FEATURES

A Sico BY-65 can seat up to 20 children and helps to maximize space use and cut down the turns in your food service area.

The benches on a BY-65 flip up to make floor cleaning easy without moving the whole unit.

Removing two bolts allows any bench to be removed so wheelchairs can be rolled up to a table.

Sico BY-65's nest for compact storage, taking 50% less space than some others.

Expansion rivets keep table tops firm to the frame and won't work loose like ordinary screws. Sico's Armor Edge on tops is incredibly durable and hermetically seals the edge of the table.

Floating fold design means easy setup and handling. The torsion bar makes lifting effortless: minimal lifting force required.

Aircraft lock nuts at pivot points can't be easily removed.

High pressure Melamine tops with MDF core stay nice because they don't touch the floor during transport.

Legs are nickel chrome plated for durability, appearance, and ease of cleaning.

A rigid vinyl backer sheet is applied to the underside of the table tops for moisture control and easy clean-up.

ADDITIONAL FEATURES

- Take advantage of the free space analysis drawings which will provide you with the appropriate number of tables and table accessories.
- Serial numbers for easy identification.
- The Sico BY-65 table comes with a 15 year warranty and is UL listed.
