

# SICO LB MOBILE FOLDING TABLE

## FEATURES

**Expansion rivets** keep table tops firm to the frame and won't work loose like ordinary screws.

**Floating fold design** means easy setup and handling. The torsion bar makes lifting effortless: minimal lifting force required.

High pressure Melamine tops with MDF core stay clean because they don't touch the floor during transport.

Sico's **Armor Edge** on tops is incredibly durable and hermetically seals the edge of the table.

Legs are **nickel chrome plated** for durability, appearance, and ease of cleaning.

A rigid **vinyl backer sheet** is applied to the underside of the table tops for moisture control and easy clean-up.

### ADDITIONAL FEATURES

- Floating fold design makes handling easy.
- Table stores on its own 4 wheels. No need for storage trucks.
- Easy set up and take down.
- Serial numbers for easy identification.
- UL listed.
- 15 year warranty.
- Reinforced nylon guides protect floors.
- Optional black powder coat finish.
- Take advantage of the free space analysis drawings which will provide you with the appropriate number of tables and table accessories.
