

SICO SEMINAR MOBILE FOLDING TABLE

FEATURES

Expansion rivets keep table tops firm to the frame and won't work loose like ordinary screws.

Legs are **nickel chrome plated** for durability, appearance, and ease of cleaning.

Floating fold design means easy setup and handling.

Sico's **Armor Edge** on tops is incredibly durable and hermetically seals the edge of the table.

High pressure **Melamine** tops with **MDF** core for strength and durability.

A rigid **vinyl backer sheet** is applied to the underside of the table tops for moisture control and easy clean-up.
