

# SICO PACER MOBILE FOLDING BANQUET TABLE

## Three Ways to Improve Profitability

### Faster Turns

- The SICO Pacer is designed to take the work out of setup, tear down, and trips to storage.
- These tables fold and roll quickly and easily into storage and back into action the minute you need them. Quicker turns mean you can schedule more events and increase Banquet Sales.

### Longer Product Life Cycle

- Because SICO Pacer tables store on their own built-in wheels, their tops are not subjected to the constant punishment that conventional folding tables endure when they are rolled on the table edge to and from storage.

### Labor Savings

- Banquet Managers continue to marvel at how fast the Pacer can be rolled out two at a time from storage and quickly set by one person. With ever shrinking budgets, they are pleased with the time and labor savings.
