

SICO CHOICES: ROOM SERVICE TABLES

SICO ROOM SERVICE TABLES MOVE AS FAST AS YOUR BUSINESS. FROM HOUSEKEEPING TO ENGINEERING, THESE TABLES ARE USED TO DELIVER MORE THAN JUST FOOD.

- SICO Room Service Tables are quiet whether rolling to guest rooms, or returning to the kitchen. Vinyl-coated PVC racks eliminate noisy metal-to-metal contact when transporting any size food warmers, cup racks, etc.
- Easy-care high pressure plastic laminate tops and melamine backer sheets can be cleaned with soap and water or steam cleaned.
- The MDF core outperforms plywood or particle board, is light-weight and resists warping.
- Table top surface is textured to better hold table cloths.

Extra heavy self-cleaning vertical hinges give extra security to whatever gets loaded on your room service tables. Compare — SICO Room Service Tables are built better, to last longer.

Retractable bar locks table wings in place when table is in fully flat position.

Comfortable seating for four with oval shape tables that won't crowd your guest rooms. The oval shape also makes it easier for guests to reach everything on the table. SICO's center leg design gives your guests extra leg room. Racks flip up to allow unobstructed seating.

Superior construction
Aircraft locknuts are used at all pivot points so they stay in place through years of use.

Easily cleaned frames are available in high quality nickel chrome plate or black powdercoat finish so that they remain professional-looking for years.

4" (10cm) gray polyurethane wheel. Zinc plated caster for attractive appearance and corrosion resistance.

Tops fold vertically for storage on Tri-Fold, Bi-Fold, and Uni-Fold tables. Tables can be nested in a minimum of floor space, 6 1/2" (16.5cm) during storage.

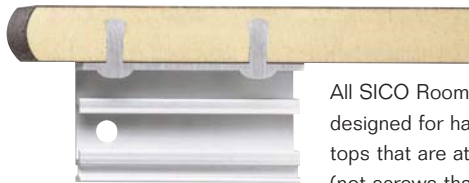

Optional:

Table Guide available. Rotates instantly from stored position beneath tables into use.

DURABLE MATERIALS

The SICO Armor-Edge® is the strongest edge available. It hermetically seals the edge for sanitary purposes, allowing for easy clean-up, including steam cleaning.

All SICO Room Service Tables are designed for hard use and abuse with table tops that are attached with expansion rivets (not screws that can work loose).
