

Choice #4: Sidefold Wallbed

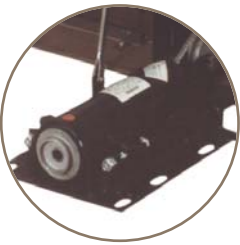

- Better choice for low ceiling heights and to accommodate soffits.
- Space efficient choice for small rooms and cramped spaces.
- Bed folds horizontally and can be mounted on wall or floor.
- Recommended for dormitory or fire station applications.
- Lifting and lowering the bed is so easy you can do it with a fingertip.
- 5-year warranty on frame and mechanism.

Compression "Power Packs"

The coil is compressed when the bed is lowered to the floor and expands back to its original position when the bed is stored in the up position. Using this technology, the coil is never fatigued by stretching. Bed raises & lowers with just 8 lbs. (3.6kg) of fingertip pressure.

Headboard is ¾" (2cm) Particle board with a 24oz. Naugahyde vinyl covering - available in six standard colors.

SICO's Box spring & premier mattress offer sleeping comfort of a conventional bed. Bedding is custom made to SICO's exacting specifications by Restonic.

The box spring is attached to the bed frame with screws. The mattress is secured to the boxspring with a Velcro® mattress strap - permanently positioned.
