

The Tuscan Series

The new SICO Tuscan Wallbed system features matched face and doors in Sapele (shown), Cherry, Maple, Oak, or Mahogany. Handles and black lacquered trim complete the illusion of faux drawers and doors on the face. Each cabinet stack shines in a black lacquered finish, has dental moulding wood shelves, two-door cabinet units, toe kicks and is topped with dental moulding and colonial crown. The lighted header brings out the highlights in every grain of wood finish.

The wallbed offers all of the sleeping comfort of a mattress plus a full boxspring. SICO can build this exact wall system for you, or one can be custom designed by the SICO space analysis department to meet your design requirements.
