

STANDARD COLOR SELECTION FOR ONE-PIECE SEATS ON SICO TC-65 MOBILE FOLDING TABLES

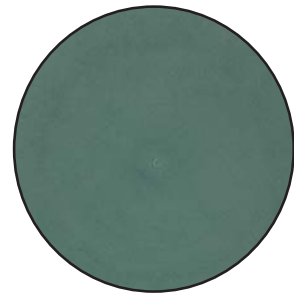

Sico seats are ABS plastic, the same material that is used in football helmets and car bumpers. Thoroughly tested by Sico, these unique seats are designed to stand up to hard use without replacement or maintenance, other than an occasional cleaning with soap and water.

Blue Ridge (113)

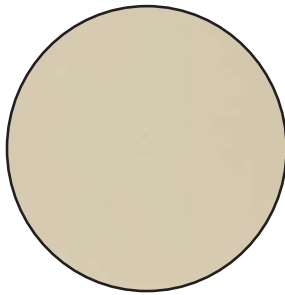

Burgundy (118)

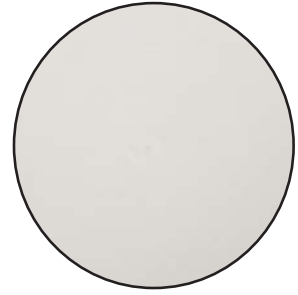

Spruce (121)

Black (111)

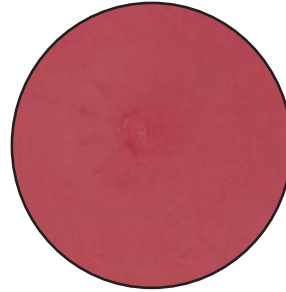

Tan (119)

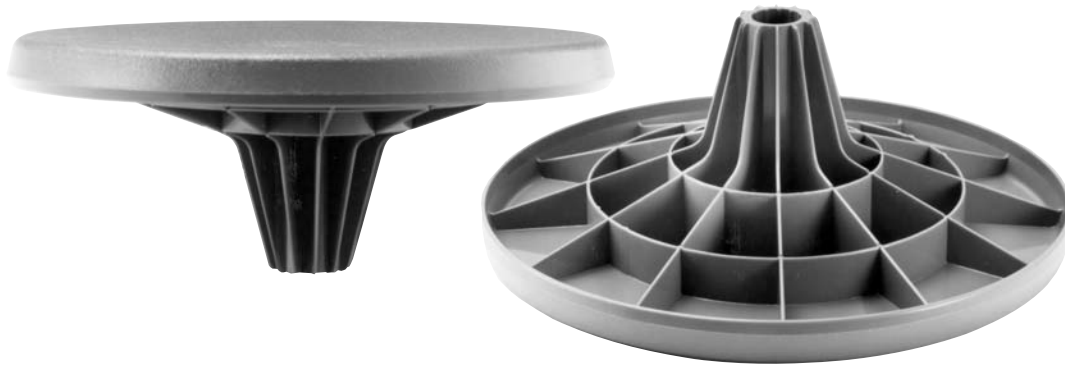

Gray (120)

Dark Blue (122)

Red (116)

**SICO's TC-65 seats have
been tested over and over...
they are the very best seats available!**

Here are some of the tests performed on the new seat:

● **Impact Resistance Test**

A free falling weight of 25 lbs. (11kg) with a bullet-shaped nose on a 5/8" (1.6cm) shaft was dropped onto seats. It would slightly dent the surface, but failed to fracture the seats.

● **Edge Damage Test**

A 53" (135cm) pendulum with a 22 ½ lbs. (10kg) weight was allowed to strike the edge of the seat from 20, 30, 40, and 50 degree angles. There was no seat failure to these tests.

● **Edge Lift Test**

Frequently the edge of the seat is used to lift and fold the table. The SICO TC-65 seats would take the force of over 400 lbs. (181kg), without failure.

● **Deflection Tests**

A weight of 260 lbs. (118kg) was placed on the edge of a seat. This weight was released and reapplied through 45,000 cycles. Since no damage or permanent distortion had occurred, the test was stopped.

● **Continual Edge Lift Test**

A complete TC-65 with seats was continually raised and lowered by grasping the edge of the seat. Through 24,000 cycles, there was no distortion in the seat.
