

SICO® Electric Portable Food Warmer

Everything needed to cater hot meals to your guests.

Features, Advantages & Benefits

Quick Stabilizing Temperature - Under normal conditions, the electric food warmer takes approximately 20 minutes to reach 165 degrees F (74 degrees Celsius). It then maintains that temperature.

Power Source - Units may be ordered for 120 volt or 240 volt power input. Each unit is 300 watts (2.5 amps at 120 volts, 1.3 amps at 240 volts).

Conventional 3-prong Plug - Just plug it in and turn on the switch located on the back.

All Riveted Construction - No spot welds that break in extreme heat for increased durability.

Energy Efficient Double-wall Construction - Keeps the exterior of the food warmer from getting too hot to handle. The units are so well insulated that they may also be used to transport cold food.

Sturdy Handles - Convenient top and side handles make it easy to place the unit under your SICO® room service table.

Positive Gravity Lock - A secure gravity lock keeps the door securely closed eliminating spillage of food or canned heat.

Exterior Stainless Steel and Interior Aluminum - Reinforced stainless steel construction for superior durability. easy-to-clean.

Removable Back Panel - Makes repairs easy and affordable.

Storage Shelves - Three spacious shelves fit snugly to eliminate unwanted noise in transport.

Serial Numbers - Each food warmer is marked for easy identification.

Warranty - Protected by a **1-Year Warranty** against manufacturer's defects. **Lifetime Warranty** on welds.
