

# SICO X-PRESS® STAGE & RISER SYSTEM

Combine SICO X-Press® straight and pie sections to build the perfect system for your rehearsal or performance area. We recommend the 3' depth for choral and the 4' for band applications. Units can be easily moved when necessary and stored on our portable caddies to keep your spaces flexible. If you do not see a plan below that fits your space needs, call us for a **FREE** custom design lay-out.

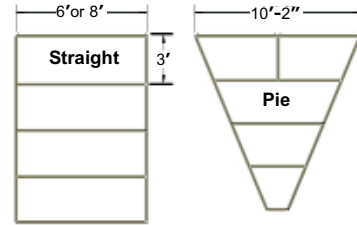

## 3 Tier 3' Deep Modules

SICO X-Press® Stages are available in 3' x 8' or 4' x 8' sections in your choice of carpet, Tuff-Deck or reversible carpet/Tuff-Deck surfaces. SICO X-Press® Stages typically incorporate 6" tier increments, up to 6 tiers / 36".

Rectangular set-ups optimize the use of space and are very affordable. Need a different size? No problem! Consult your SICO sales representative. If you do not see a plan below that fits your space needs, call us for a **FREE** custom design lay-out. Just tell us your room dimensions, standing or seated room capacity and we'll do the rest.
