

Insertable Leg Stage

Features

The SICO® Insertable Leg Stage & Riser system creates an affordable, easy-to-use solution for tiered rehearsal room or performance stage risers. You get the flexibility of rectangular, square or curved tiered riser configurations for bands or choirs, or as a single-height elevated platform. For ultimate customization, tiered riser configurations are assembled using varying insertable leg heights and pie-shaped decks.

The structural decks are constructed with a honey-comb core sandwiched between 3/8" thick plyboards. Deck is light-weight, very strong and quiet, with strength to support 125lbs. per square foot (610 kg. per square meter), which meets or exceeds most building requirements.

- | | |
|--------------------------------|-----------------------------|
| ① Structural Deck | ⑤ Single Flex-Pin |
| ② Hook & Loop Drapery Fastener | ⑥ Dual Flex-Pin |
| ③ Multiple Configurations | ⑦ Quad Flex-Pin |
| ④ Non-Marring Glide | ⑧ Dual Flex-Pin Dual Height |
| | ⑨ Quad Flex-Pin Dual Height |

Maximize Storage

Simplicity of design allows for storage of very few components. Decks store compactly on mobile stage cad-dies for easy transportation. Minimal storage requirements for the supports.

Specifications

Type	Description	Weight
Insterable Leg Assemblies	Single Flex-pin Insert Leg Connectors: 6"-24" (15-61cm)	3.5 lbs. (1.6kg)
	Dual Flex-pin, Single/Dual Height Insert Leg Connectors: 6"-24" (15-61cm)	7.5 lbs. (3.4kg)
	Quad Flex-pin, Single/Dual Heights Insert Leg Connectors: 6"-6"-24" (15-61cm)	15.5 lbs. (7kg)
Structural Bridge Deck Units	3' x 8' (91cm x 244cm) Deck Unit	100 lbs. (45kg)
	4' x 8' (122cm x 244cm) Deck Unit	135 lbs. (61kg)
