SICO INSTA-THEATRE®

Save thousands of dollars in construction costs!

Optimize your multi-purpose room space!

Trusses, rigging, curtains, and lighting are supported by wall mounted frames. Designed with security in mind: The corner towers are connected to front and folding top trusses that lock into place. Locks release from ground level.

STEP

1

Open the optional, vinyl protective curtain, revealing the beautiful theatre: Stage sections and accessories are stored within the folded Insta-Theatre®.*

The Insta-Theatre® stores in a built-in pocket or against a wall in as little as 4-½' to 6' of depth. An optional protective curtain is available to hide the theatre when not in use. **Pulley system:** Makes opening and closing the curtains a breeze for a fully professional production.

Mobile folding 1800 stages (shown above), or Tri-Height stages will be included as part of the system). They may be used elsewhere in your facility. Simply roll into place and set for use as head-table risers, speaker's platforms, demonstration stages, band and orchestra risers.

* Assuming typical stage configuration. Consult your SICO sales representatives.

SICO Insta-Theatre® includes back, side and front curtains, top canopy, and optional heavy duty protective curtains. Top canopy combined with side and back curtains provides excellent acoustics and prevents light leakage from performance area.

Enjoy the benefits of a theatre without the normal cost or space consumption. Imagine transforming your cafeteria, gymnasium, or multi-purpose room into a professional theatre in minutes. **It's as easy as 1, 2, 3...**

STEP

2

Two person set-up: Simply roll out the front support towers and pivot the curtain tormentors (side wings) to each side. This hides the backstage area from the audience's view. **Towers roll easily:** on heavy-duty 6" (15cm) casters.

STEP

3

Roll the easy-to-operate Sico stage sections into place: Power up the pre-installed theatre lights, attach the velcro stage skirting and you are ready for your performance.

Self-contained, full performance lighting system included!

• **Professional remote lighting control:** Allows complete adjustment of lights from a remote location. Console comes with 50' (1524cm) of cable.

Includes the dramatic lighting you'd expect of a professional theatre:

- 1) Six Par 56 luminaries and six 6" (15cm) fresnel spotlights - all with 500 watt lamps.
- 2) Two dimmer bars with six dimmers per bar.

220V power distribution cabinet: (Single, or three-phase adaptable.) A locking security door includes six branch circuit breakers. A frame-mounted line breaker and safety switch cut power to the theatre when it folds back into storage.

Storage takes just minutes: Portable stages are folded up, tormentor wing curtains are folded in, mobile towers are rolled back, and the Insta-Theatre® is covered with its protective curtain.

SICO INSTA-THEATRE® Offers Professional Features:

Two layers of front curtains:

- 1) Optional outer protective curtain is made of heavy vinyl designed to protect inner theatre curtains.
- 2) Velour inner theatre curtains are the same as those used on major stages around the country.

SICO's professional staff can help you plan an Insta-Theatre® into your new or existing facility. There is no charge or obligation for this service.

The SICO 3-in-1 ConverTable is the perfect match to an Insta-Theatre system. These tables can be set-up with the Insta-Theatre as auditorium-style seating. They also have the flexibility to be reconfigured as cafeteria, or testing tables.

Folds into a wall recess pocket...

...or against a wall.

Unfolds easily to a full theatre.

Three sizes of Insta-Theatre®(open):

- 24' wide, 17' 2" deep (731cm, 523cm)
 - 28' wide, 17' 2" deep (853cm, 523cm)
 - 32' wide, 17' 2" deep (975cm, 523cm)
- All standard sizes are 14' high (427cm)
Custom sizes available.
