WOOD LEG

Innovative SICO® wood leg nesting tables deliver a perfect fit in every way – from sublime style that enhances your image to smooth-rolling transport and space-saving simplicity.

They feature a classic, clean design with hand-crafted Oak or Maple wood veneers in a variety of finishes and sophisticated tops. Arrange them in traditional or unconventional layouts to create elegant serving and action stations.

Offering stunning beauty along with rugged durability that stands up to everyday commercial use, our wood leg nesters are available with an optional glass overlay for extra protection and easy cleanup.

METAL LEG

If your décor calls for a sleek, contemporary look, our metal leg tables put dozens of design combinations within your reach. Choose from chrome, silver, copper or black powder coat legs, along with quartz, laminate, granite composite or wood tops. And you can always add a glass overlay for extra protection.

With their smooth-rolling casters, you can configure them to fit any event's demands. Small tables are a perfect complement to a lobby sofa. Large tables make ideal serving stations for your chef's creations or check-in desks for big conferences or galas.
