

# TC-65 Table

## Features

The Lightest Weight Table in the Industry. Leading the way in innovation by developing the next generation of tables for the way schools use them today. Each table is a system with each piece engineered to work together. A key feature is the EXCLUSIVE SICO® Strut™ as a lift assist. No more tables becoming harder to lift over time EVER! Plus more color options, three tops shapes and two stool shapes allowing you to create just the right look for your school's environment.

Tables in our TC-65 series serve 25%-40% more students than tables with chairs within the same footprint, so you can maximize your space while minimizing costs.
